What happens in Year 6?

Alongside the consolidation and embedding of existing skills and learning from their previous years at Victoria, a key focus here in Year 6 is to provide our learners with the tools and strategies which enable them to confidently approach new challenges with determination and resilience. We teach and introduce many new skills, share new knowledge, and create plentiful opportunities for the pupils to progress and become more confident with their own capabilities.

Another important part of year 6 is preparing our children for their transition to secondary school. The importance of autonomy in learning and self-motivation, is increasingly emphasised with our pupils as the year progresses, in order to help them confidently approach the new challenges which lay ahead.
